FTTX Harsh Environment Wiring Solutions

FTTx special outdoor environment, refers toa number of special environmental fiber opticommunication cablingtion, military, ship orenvironment, such as stage broadcasting, tlevision and film video, live sports events, aviacoal mine oil wells communication connecton, military rapid co-mmunication cabling, temporary emergencys kind of fiber optic communication wiring, gererally require wiringcommunication repair special scenarios. Thcommunication fiber optic wire, need to hae waterproof, sunscreen tensile, compressivewear-resistantcorrosion-resistant, wire soft and easy to ptt away and so on. CCOFC fordifferent use of the environment, the introdiction of a series of corresponding wiring prodicts, such as fibernd outdoor generalon-metallic armored fiber optic cable, indoor aoptic cable TPU armored fiber optic cable, nfield optical cable, etc, Connectors havemetal aviation connector series, TBE field wall conlector series, 3k93Coptoelectronic hybrid insertion and extractin self-locking series, HXB with lens beam exponsion series and aseries of professional high-end connectors。
